

Engineered Systems & Services

“Viscosity has earned their place as a most valued Partner for our IT department. Their professionalism and dedication allowed us to meet our commitments to internal business units, and provide a better performing, better architected system.”

- Senior Director,
IT McAfee, Inc.
(an Intel Company)

Delivering Engineered Systems & Services to industry leading clients

Viscosity knows you have made, or are about to make, a significant investment and can ensure you get the most out of it as quickly and painlessly as possible. Viscosity’s Engineered Systems experts are Exadata certified and have extensive experience working on large, complex projects, as well as delivering ahead of time and under budget.

If you are considering an investment in an Engineered System or have already made one, we have a cost effective services offering that will give you the assurance that your mission critical systems are performing at their optimum capability.

Viscosity provides comprehensive Engineered Systems & Services, which include:

- Initial Installation & Configuration
- Zero downtime Migration
- Upgrades
- Patching
- Performance Tuning
- Consolidation
- ZFS Storage Appliance Implementation, Patching & Upgrade
- Enterprise Manager (OEM) Integration
- Training

Whether you’re consolidating onto Oracle Exadata, RAC, EMC, VCE, SQL, VMWare or Oracle VM, when you lean on Viscosity, you’re partnering with genuine experts and acclaimed authors of industry best practices.
