

Viscosity Hybrid Cloud Services

“Viscosity has earned their place as a most valued Partner for our IT department. Their professionalism and dedication allowed us to meet our commitments to internal business units, and provide a better performing, better architected system.”

- Senior Director, IT McAfee, Inc. (an Intel Company)

A hybrid cloud approach gives organizations the best of both Private & Public Cloud models, providing the flexibility to put different workloads and data where it makes the most sense.

Leverage Viscosity’s expertise in Public and Private Cloud Architecture to gain the confidence in delivering best of breed technologies and solutions that drive lower cost in new technology adoption while delivering significant savings of operational expenditures.

Viscosity is a leader in Hybrid Cloud Services, building on-premise Private Cloud to numerous enterprise customers, migrating them to the Public cloud, and integrating Private-Public cloud. Viscosity Hybrid Cloud Services (VHCS) creates a flexible foundation for the blended model, provisioning management and integration of multiple clouds.

Viscosity offers a full range of services to help you get the most out of Oracle’s solutions, covering the following services:

Cloud Offering:

- Cloud Migration Services
 - Assessment of Cloud Adoption Strategy
 - Zero Downtime Migration of Databases to the Cloud
- Application Development
- Managed Services
- Backup Solutions to the Cloud

Deployment and Delivery Models:

- Cloud application migration services
- On-premise private cloud infrastructures
- Off-premise private cloud infrastructures deployed at either a customer data center or a secure host provider
- Hybrid cloud infrastructures

Our cloud architects will work with you to analyze and understand your strategic and business goals, and then develop a customized plan to your cloud solution. Viscosity cloud architects are fully versed and certified against all Oracle solutions including Oracle Database, Oracle Middleware platforms, Oracle Business Intelligence and Analytics, and Oracle Applications.

Whether your needs are Cloud, Database, or both technologies and services, when you lean on Viscosity, you are partnering with genuine experts and acclaimed authors of industry best practices.
