

HIPAA Compliance Services

“Viscosity has earned their place as a most valued Partner for our IT department. Their professionalism and dedication allowed us to meet our commitments to internal business units, and provide a better performing, better architected system.”

- Senior Director,
IT McAfee, Inc.
(an Intel Company)

The Health Insurance Portability and Accountability Act (HIPAA) specifies that covered entities must implement technical policies and procedures to allow access only to those persons and business associates that absolutely require access to Personal Health Information (“PHI”).

Business associates and covered entities can leverage Viscosity’s expertise in Data Security in delivering best of breed technologies and solutions to assess business requirements, inventory sensitive data and develop state of the art solutions to protect data.

Viscosity is a leader in Privacy and Data Services, building secure solutions for numerous enterprise customers. Viscosity Privacy and Data Services (VPDS) create a secure foundation for protecting data and ensuring maximum usability. Our services include:

Data Services:

- Define the high level strategy and scope for your data solution
- Understand your entity’s data and unique technical, cultural and organization capabilities and challenges
- Design an achievable solution incorporating HIPAA best practices
- Build and implement solution roadmap/Optimize implementation
- Transfer knowledge of your system to key players

Privacy Services:

- Comprehensive assessment of sensitive data
- Data security for operational, analytic and testing Purposes
- De-Identification and tokenization in data transfers

Our data and security architects will work with you to analyze and understand your strategic and business goals, and then develop a customized plan for your organization. **Viscosity architects are fully versed in data governance and management as well as privacy requirements.** We leverage best in class tools to enable you and your organization to achieve your goals. Our team is certified in all Oracle solutions; including Oracle Database, Oracle Middleware platforms, Oracle Business Intelligence and Analytics, and Oracle Applications.

When you lean on Viscosity, you are partnering with genuine experts and acclaimed authors of industry best practices.
