Privacy Shield Cloud Management Services

“Viscosity has earned their place as a most valued Partner for our IT department. Their professionalism and dedication allowed us to meet our commitments to internal business units, and provide a better performing, better architected system.”

- Senior Director,
IT McAfee, Inc.
(an Intel Company)

Governments are increasingly policing data. Many want organizations to register databases that have personal information. Some restrict transmission of data outside of borders. Most notable is Privacy Shield, which governs the transmissions of Personal Data outside of the EU, to the US.

Leverage Viscosity’s expertise in Cloud Architecture to gain the confidence in delivering best of breed technologies and solutions to assess business requirements, inventory restricted data and develop state of the art solutions to share data.

Viscosity is a leader in Privacy and Cloud Services, building secure Cloud-based solutions for numerous enterprise customers. Viscosity Secure Cloud Services (VSCS) create a secure foundation for provisioning data and integration of systems across multiple clouds.

Our Privacy and Cloud Services include:

Cloud Offerings

- Cloud Migration Services
- Assessment of Cloud Adoption Strategy
- Zero Downtime Migration of Databases to the Cloud
- Application Development
- Managed Services
- Backup Solutions to the Cloud

Cloud Data Security

- Comprehensive Assessment of Sensitive Data
- Securing Data for Operational, Analytic and Testing Purposes
- Cloud infrastructures

We are a Delphix partner to accelerate, simplify, and transform EBS application customization and enhancements.

Our security and cloud architects will work with you to analyze and understand your strategic and business goals, and then develop a customized plan for your cloud solution. Viscosity architects are fully versed in local and international privacy requirements as well as best in class tools to enable you and your organization to achieve their goals. We are certified against all Oracle solutions including Oracle Database, Oracle Middleware platforms, Oracle Business Intelligence and Analytics, and Oracle Applications.

Whether your needs are Cloud, Security, or both, when you lean on Viscosity, you are partnering with genuine experts and acclaimed authors of industry best practices.
