

Cloud Readiness Assessment

Let Viscosity help develop your Enterprise Cloud Strategy

“ Viscosity has earned their place as a trusted advisor for our IT department. With their deep technical expertise, agile response time, and customer first approach, Viscosity has improved our business operations from the moment they arrived.”

- IT Manager,
ClubCorp USA Inc.

Today, most businesses understand why they should be in the Cloud. The challenge, is in understanding which Cloud and how to get there. Determining how Cloud best fits with your business strategy and organizational structure, is a complex process and Viscosity is here to help.

Regardless of where an organization is in their Cloud journey, Viscosity's Cloud Readiness Assessment uses best practices that benefit the business; moving them closer to their desired goals.

While there is no single, universal approach to finding the best Cloud solution for each business; Viscosity's proven method will guide you through our phased framework for Cloud adoption and lead you through building the best platform solution for your organization. Our Cloud Readiness Assessment, includes interactive consultations with stakeholders, to determine business practices, goals, and opportunities to define which Cloud platform is right for you.

Viscosity North America's Cloud Readiness Assessment Includes:

Phase One – Business and Technical Discovery

- Business Requirements and Strategies
- Business Application Discovery
- Data Center Architecture and Operations Review
- ROI Analysis

Phase Two - Analysis

- Choosing the right Cloud Provider
- Selecting the Appropriate Application for Cloud Migration
- Define Proof of Concepts Process and Success Factors
- Migration Strategy and Options

Upon completion of the review, Viscosity will provide detailed documentation with findings, methodology, and recommendations to help you make the right move to the Cloud.

Whether you're making the move to Public, Private or Hybrid Cloud, when you lean on Viscosity, you're partnering with genuine experts and acclaimed authors of industry best practices.
